Forecast For Wales
Issued by Met Office Exeter
at 0400 on Tuesday 12 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Wet and cloudy towards the south, drier in the north.

Today:
A cloudy and wet start for many away from the northeast. Staying cloudy and mild in the south with outbreaks of rain throughout the day. Elsewhere, turning drier and colder with sunny intervals. Maximum temperature 10 deg C (50 deg F).

Tonight:
Turning cloudier during the evening with rain mainly confined to the southwest at first. Rain will become more widespread as it moves northeastwards overnight. Minimum temperature -2 deg C (28 deg F).

Wednesday:
Outbreaks of heavy rain will affect north and central Wales during the morning, easing by the afternoon. Elsewhere, a cloudy day with winds strengthening. Maximum temperature 11 deg C (52 deg F).

Outlook for Thursday to Saturday:
Drier on Thursday with sunny spells and isolated showers. Some sunny breaks on Friday before rain during the evening. Wet to start on Saturday, clearing later.
